WORK EXPERIENCE

SOFTWARE ENGINEER

ONEMORE KK (GREENFUNDING) | 2020 November – Current

- Lead development in the integration of a product recommendation engine.
- Improved page-load speed of a customer facing dashboard by 98%.
- Developed and shipped a promotion website for a 4-way cross company collaboration project expected to scale to an audience over 40,000 people. Built in a tight 4-week deadline involving 2 round creative checks from TSUTAYA Group.
- Designed and developed a mobile compatible version of an existing administrative dashboard, improving work efficiency for the sales team by eliminating device-dependency for data accessibility.

MANAGER – OTA OPERATIONS

OYO Hotels Japan GK | 2019 March – 2020 June

- Ground up establishment and structuralization of the OTA (Online Travel Agent) Content Team
- Led team in the A → Z operational process of creating an online property listing from registration, content optimization, to API Integration between internal/external channel managers
- Team KPI management
- Provided Web/UI direction to publish HTML/CSS templates to best highlight individual partner properties
- Increased Domestic OTA platform OCC% contribution by 300% through SEO and user testing
- Acted as primary point of contact for B2B relations between OTA Partners (Agoda, Booking.com, Expedia Group, and Rakuten Travel)
